COP DATA DISCUSSION

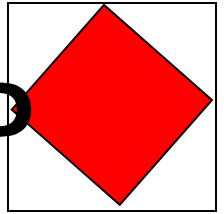

Fleet Support

- COP Data
 - Improvements seen through training and open communications
 - NAVSEA 04 & CDM websites now accessible to all ISEAs for visibility of Standard Procedures
 - NSWC PHD agreement on COP processes reached which reduces inaccuracies in COP submittals
 - Technical expertise lies with ISEA vice PY/CDM
 - What tools/guidance ISEAs need

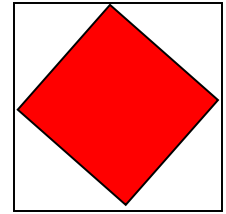

WHAT IMPROVEMENTS ARE AHEAD

Fleet Support

- CDM's/ISEA's continue to improve working relationships
- Reiterate the importance of accurate and timely workfile submissions
- Continue to improve communication between CDM's and ISEA's by participation in NAVSEA 04L5's CDM/ISEA Working Groups
- Produce and implement standardized and agreed COP procedures
- Need to expand ISEA acceptance on defined roles & responsibilities

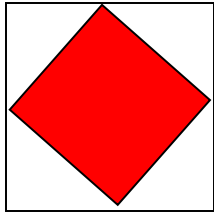

NEXT STEPS

Fleet Support

- Establish good working relationship with RMC.
- Ensure RMC duties are documented and implemented by correct activities.
 - Ensure no task or responsibility is forgotten in the change-over.
- Track and ensure adherence to existing standardized procedures.
 - No special cases
